Our admission test papers have not been restricted to a certain syllabi to ensure that students are not able to enhance their performance significantly by working only for a few weeks / days. A student who has worked hard in a thoughtful manner with sustained motivation over the years will do better than others. With this we come to know one's real potential for Competitive Entrance Exams over others. Like IIT-JEE / Other prestigious competitive exams, our tests are low scoring. The technique to succeed is to improve your strike rate i.e. focusing on correct solutions rather than attempting all questions.

Students registering for Admission Test can download Free Sample Papers from our website. Log on to **www.fiitjee.com/samplepapers.htm** with your Registration Number and Web Access Code as printed on the Admission Test Hall Ticket. Please ensure that you enter your correct details on the website.

Integrated School Programs

(Not-for-Profit Initiative)

FIITJEE Integrated School Programs are a dream of FIITJEE team to bring renaissance in the Indian Education System as we try to move towards Ideal School Education. Being a private initiative at highly subsidised course fee, the seats for all integrated school programs are limited.

Our Integrated School Programs have the capability to help Students of **Class VII, VIII, IX, X, XI & XII** to achieve - Overall Academic Excellence in Class X & XII Boards, State level science & scholarship tests, NTSE, JEE Advanced, JEE Main in a single system within regular school hours. Thus, bringing in tremendous focus & reduction in undue stress.

What is an Integrated School Program ?

- A study program with a synergistic approach to both the School / Board studies as well as JEE Advanced, JEE Main, Other Engineering Entrance Exams preparation.
- A program for School / Board studies as well as JEE Advanced, JEE Main & Other Engineering Entrance Exam Preparation - that will complement each other.
- A program that prepares Students extremely well not only for JEE Advanced, JEE Main & Other Engineering Entrance Exams but also for School / Board exams as well.
- A study plan that eases out the pressure of time (or the feeling for the lack of it) for the Student, unlocking lots of extra time, giving enough time for self-studies, which a Student would not have got otherwise and also giving him / her sufficient time for co-curricular activities, self study, sports, social activities etc. which are equally important for his / her personality development.
- A program that eliminates negative pressure on the Student.

Integrated School Programs

(Not-for-Profit Initiative)

Benefits to the Students

- Students enrolling in these programs will have an integrated study plan.
- The studies for both School / Board as well as JEE Advanced, JEE Main will be controlled and executed by FIITJEE.
- This would mean that the Student would not be going through two separate schedules and Classes for the same subject.
- Complete Lab and other support will be provided to the Students.
- Integrated School Programs would provide thrust for the Students to participate in co-curricular activities, sports, social activities etc which are very important for their personality development.

FIITJEE & the Associate School will also aim for :

1. Developing Proficient Communication skills with confidence in every Student.
2. Inculcating Sports / Exercises as a discipline for Physical Fitness of life for each Student.
3. Improvement of Memory & IQ, Mental, Physical & Spiritual well-being, Awareness & growth with intensive Yoga & Meditation for all Students.
4. Instilling Indian Culture & Values in each Student, not to learn these as History & Geography but learn to base their lives on it.
5. Developing important personality traits (Focus, Effective Communication, Leadership Ability, Determination, Strategic Planning, Pro-active Approach, Handling Failures, Stress, etc.) & Positive Attitude required for success. (This is what corporate sector tries to teach employees who are 25 - 55+ years of age and they hardly respond to changes required).

THREE YEAR CLASSROOM PROGRAM

for JEE Advanced, 2020

For Students of Class 9 & 10, who have also decided upon their dream of becoming a successful engineer; it is an important stage in their academic career where they must join a Coaching Institute and begin their preparation for IIT-JEE from an early stage like this.

With the passage of time, the selection process & the competition level in IIT-JEE among Students have become tougher ; So, to achieve a greater Success with a Good Rank in IIT-JEE, all Students must start their preparation ideally from Class 9th and most definitely from Class 10th. Only then will they be able to outperform those students who will start their preparation at a later stage.

This journey will be four / three year long and along the way there will be a few other important milestones to achieve as well, like NTSE, Jr. & Sr. Olympiads, KVPY etc. Hence, it becomes very important for all Students, aiming for a Top rank in IIT-JEE, to start preparing from this very stage.

To give lifelong Success to Students of Class 9 & 10, who are aspiring for a Top Rank in JEE 2021 and JEE 2020 respectively, we have path-breaking Classroom / Integrated School Programs, to help them achieve their desired results.

Classroom / Integrated School Program

For Students of Class 9

IITs have restricted the number of attempts for JEE Advanced. Students now have only two chances – one right after the XII Board exams and the second immediately in the next year. They should try to succeed in JEE Advanced in the first attempt and not take unnecessary pressure as uncertainty of ill-health or any accidents while appearing for the second & last attempt could be too risky. Till the eighties, it was alright if you started your preparation just after XI and at the beginning of XII, but even then to get Top Ranks you had to begin your preparation at the commencement of XI itself. In late nineties, it became a norm to start preparation at the beginning of Class XI and devote at least two years to train rigorously for JEE Advanced.

Now, with the increase in competition and keeping in mind that only two chances are available, only the very talented Students can succeed by starting their JEE Advanced training in Class XI. But, if you do not have an inborn spark that can put you amongst Top performing Students in JEE Advanced, you have no other choice but to start as early as Class IX to achieve the desired success.

THREE YEAR
CLASSROOM PROGRAM

for JEE Advanced, 2020

The Long Term Goal of this Program is to help each & every Student get a Top Rank in JEE. Moreover, equal emphasis is also given on achieving excellent performance in Boards as well as Combined Engineering Entrance Exams. As NTSE is a major milestone in Class X, Students are meticulously prepared for delivering a remarkable performance in this Exam. KVPY is another such Exam which is a vital milestone in Class XI & XII. Students are holistically trained & prepared to ace this important Exam too. These three years of intensive IIT-JEE training will help Students to gain a vast edge over the competition.

IITs have restricted the no. of attempts for JEE Advanced. Students now just have two chances – one right after the XII board exams and the second immediately in the next year. As a priority, they should try to succeed in JEE Advanced in the first attempt and not take unnecessary pressure as uncertainty of ill-health or any accidents while appearing for the second & last attempt could be too risky.

Best way is to start your JEE preparation from the beginning of Class IX, but if you have not been able to do so, it is prudent to start your preparation at the earliest. Three Year Classroom Program for JEE Advanced, 2020 for Students who are presently in Class X is the next best alternative.

The goal of the program will be to help you score high marks in X & XII Boards and get a good Rank in JEE Main & JEE Advanced. The program will also prepare you for NTSE and Other Engineering / Scholastic Competitive Examinations.

Physics, Chemistry, Mathematics, Biology, Social Studies & Mental Ability will be covered for NTSE level while focus for JEE Advanced continues. Classroom contact hours of approx 965 hrs. i.e. (284 in Class X, 401 in Class XI & 280 in Class XII). 1. Rs. 10,000 less 50% scholarship = Rs. 5,000/-
2. Rs. 5,000 less 25% (Physical Disability Waiver) = Rs. 3,750/-
3. Rs. 3,750 less 10% (Sibling concession) = Rs. 3,375/-

Sai Charith Reddy

Student of FIITJEE World School
(Class VIII - X) + PINNACLE - Two Year
Integrated Program (Class XI - XII)
at FIITJEE Hyderabad Centre

I am Sai Charith. I joined FIITJEE WORLD SCHOOL in my 8th class. I came across FIITJEE through FTRE advertisement.

In the very first year of my joining, I cleared NTSE stage I and II. In FIITJEE WORLD SCHOOL we have stress free environment and peaceful classrooms. Apart from regular board exams, I was given core fundamentals in Maths, Physics and Chemistry. With this I developed interest to crack IITJEE exam. With this motto I joined FIITJEE PINNACLE PROGRAMME. In FIITJEE the faculty is really good. They cleared all my doubts when I had asked them. They have always boosted up my confidence which allowed me to remain cool during my final IITJEE exam. The faculty made me achieve perfection in everything I was taught. In 11th class I cleared off KVPY both written examination and the interview.

Workbooks and study-material in FIITJEE is really self-sufficient. I suggest anyone who desires to crack IITJEE exam in a stress free environment to join FIITJEE. I wish a great success to all my juniors.

THANK YOU

FIITJEE WORLD SCHOOL - 8, 9, 10

Ideal School Education

...is one where you do not have to make choices. Choices between performance in Boards and Competitive Exams. Choices between academics and extracurricular activities. Choices between learning and rote learning. And most importantly choices between enjoying education and not being stressed by it.

Ideal School Education is one with a holistic approach that is comprehensive, so that there is no need for any sort of coaching / tuitions / supplementary support services outside the school education. Where the goal is not just securing good marks in the Board exams but also not neglecting other areas like competitive exam preparation etc. while pursuing this goal. And where the child is able to deliver his / her best in both – boards as well as competitions – that too by having to go through a single system of learning. Where the extracurricular activities are in consonance with the overall objective of wholesome education – preparing Students for global careers as well as enabling them to conduct their lives in a much desired, honest, ethical and truthful manner.

Enhancing IQ and Raising Competition

Internal Competition and Appraisal Programme (ICAP)

Our weekly objective test (based on micro-scheduled teaching during that week) helps children in continual learning and grading where the child is not burdened just before the exam to learn many things.

Thus a Student in FIITJEE World School is NEVER unhappy or tensed about any exam as learning is a constant UPGRADING, ENRICHING, and ENTHRALLING experience.

Individual Assessment and Development Programme (IADP)

This is our month end exam which is based on the month long learning of the child in different subjects. This is a Subjective Paper designed to hone the writing skills of the child.

Visual and Performing Arts as a medium of Relaxation

Arts of different mediums in our Schools (Painting, Music & Dance) is for relaxation so that they improve Students' classroom performance. They are forms of giving an output to their parallel medium of communication.

Games like Spell-O and Chess are introduced to keep their concentration sharp

On an everyday basis we have Yoga and Meditation classes which helps children to relax and concentrate better in their classes

Inter-House Competitions

The Schools are divided into four houses wherein, at regular intervals, competitions like Debates, Declamation, Quiz, Singing, Theatre & Bulletin Board etc. are being conducted.
